EASYROSE 14" Radiant Gas Charbroiler Commercial Gas Grill with 2 Burners BTU 40,000, ETL Certified(HRC-14)

Technical Data

Length	14.02"
Width	30.47"
Height	18.46"
Net Weight	127.8 LB
Gross Weight	132.3 LB
Gas consumption	NG: 1.052 (m³/h) LPG: 0.453
Burners	2
Controls	2
Material	Front 304,Sides 430
Power(BTU)	40000

Features

- High Heat Output: Features two burners, each providing 20,000 BTU/hour of heat with separate gas valves for precise control.
- Durable and Certified: Made of high-quality, rust-resistant stainless steel, with ETL certification ensuring long-lasting performance and safety.
- Efficient Grate Design: Reversible cast iron grates are angled to direct grease to the drip pan, creating fuller flames and a ttractive grill marks on food.
- Easy Maintenance: Stainless steel structure and removable tray for capturing crumbs and excess oil ensure simple and efficient cleaning.
- Versatile Use: Adjustable heavy-duty legs and compatibility with both natural gas and liquid propane make it ideal for cafeterias, restaurants, and commercial kitchens.

Notes & Details

The EasyRose commercial grill features two burners, each delivering 20,000 BTU/hour, with individual gas valves for precise control. Constructed from high-quality stainless steel, this ETL-certified broiler is built to withstand high temperatures, resist rust, and ensure longevity. It has independent knobs and a ¾" rear NPT gas inlet for easy installation. The polished design provides a professional look that fits seamlessly into any kitchen. Its reversible cast iron grates are durable and angled to promote grease drainage into the drip pan, enhancing flame performance and creating appealing grill marks. An oil leakage hole allows excess oil to flow into the oil tray, simplifying maintenance. The stainless-steel construction ensures easy cleaning, as food is less likely to stick, and a removable tray captures crumbs and excess oil for quick cleanup. Additionally, the grill features adjustable 4" stainless steel legs to accommodate various setups. Ideal for cafeterias, restaurants, and commercial kitchens, the unit is shipped ready for natural gas connection but can be converted for liquid propane use with the included regulator.
