CAMBRO® Patient Care Solutions

Over **75** years ago, Cambro revolutionized healthcare meal service, making the first ever Camtray® for healthcare. Today, we have continued to innovate and offer comprehensive solutions that address dietary compliance, food safety, and operational efficiency, ensuring the best quality for patients, staff, and visitors alike.

Our temperature maintenance systems, meal delivery carts, storage, shelving, and personalized trays are designed to exceed patient and staff expectations. With unmatched durability and ease of use, our products are built to last.

Cambro prioritizes food safety, temperature retention, and efficient storage to prevent food-borne illnesses while preserving meal quality. By streamlining meal prep and delivery, reducing service disruptions, and maximizing efficiency, our ergonomically engineered equipment supports your team in following regulations and delivering exceptional service. It also helps improve patient satisfaction and contributes to better health outcomes. Let Cambro help you enhance your patient care and dining operations.

TRAYLINE or ROOM SERVICE

Streamlining Meal Service for Improved Patient Care

Temperature Maintenance Systems

Camduction® Complete Heat System

Camduction remains the leading choice for maintaining hot food at safe temperatures. This highly efficient and cost-effective system is ideal for acute or long-term room service.

HOLDS FOODS SAFELY AT OR ABOVE **140°F** (60°C) for up to **45** minutes

Heats **20** bases in under **5 minutes,** allowing a continuous stream of bases

FITS **9"** (23 cm) PLATES

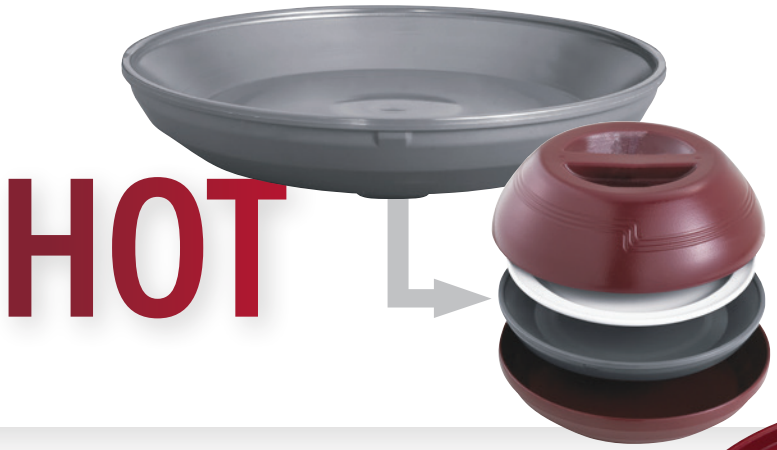
Camduction® Bases

- Durable, dishwasher-safe bases that resist chips and cracks.
- High-density plastic composite material designed to hold heat for extended periods of time.
- Available for all meal delivery ware collections.

Camtherm® Thermal Pellet System

An alternative for optimal heat retention that holds temperature for up to 60 minutes.

- Remains 20˚F (≈11,1˚C) cooler on the edge for protection from burns while handling.
- Maximizes heat retention and durability with long-lasting high-density plastic.



Heat Keeper Insulating Base System

A cost-effective solution for heat retention that holds temperature for up to 20 minutes.

- Ideal for short room service deliveries.
- Resistant to stains, odors, and scratches.

Camchiller® Pellet System

Maintains cold food at 40˚F (4,44˚C) or below for up to 45 minutes with a chilled plate and insulated dome.

- Shatter-proof even in freezing temperatures for enhanced durability.
- Stackable for efficient and hygienic storage.
- Works with or without an underliner.
- Dishwasher safe for easy cleaning.

NSF For a list of NSF-listed models, search "Pellet" and "Heat Keeper Base" at https://listings.nsf.org/certified-products-systems

Insulated Meal Delivery Ware

Mastering Traytop Presentation

Transform mealtimes with elegant traytop presentations that enhance the dining experience. Our curated collections help maintain hygiene, meal quality, and ensure that patients eagerly anticipate each meal. Each collection works with our CamLids® to keep insulated mugs and bowls secure, extending temperature retention and preventing spills.

NEW

Laguna® Collection

- Modern textured finish with scratch-resistant durability.
- Stackable design for easy storage and space savings.
- Mugs and bowls are compatible with our disposable Camlids.
- Low-profile dome option available for seamless integration with meal delivery carts.

NSF

Navy Blue 497 | Smoked Metal 485 | Black 110 | Cranberry 487

STACKABLE

Low Profile Dome Height:

2¾" (7 cm)

Perfect for limited tray spacing as low as 4½" (11,4 cm).

Classic White Ceramic Plate

- White ceramic ware creates an upscale or home dining experience, giving patients or residents a touch of elegance.
- Microwave, oven, and freezer safe for versatile and efficient use.

MDSPLT9
Ceramic Plate

Shoreline Collection

- Classic style creates enhanced meal presentation.
- Standard and low-profile domes available.
- Low-profile domes fit the 4½" (11,4 cm) spacing within carts.
- Chip and break resistant.

NSF

SHELVING for LIFE®

camguard
ANTIMICROBIAL SHELF PLATES

Maximize Space & Ensure Cleanliness with Camshelving®

Camshelving is designed to withstand extreme temperatures and environments, with easy assembly and exceptional durability. Its interconnectable components maximize space in kitchens, medical supply rooms, and more, while maintaining weight-bearing strength. Built for easy cleaning and sanitary storage with removable shelf plates, Camshelving provides a hygienic, efficient solution for your facility.

Camshelving Elements® XTRA Series

- Heavy-duty construction for maximum durability and long-lasting performance.
- Modular design offers flexibility to customize to your storage space.
- Improved cleanability and product handling.
- Starter and add-on units available with one solid bottom shelf and 3 vented shelves.
- Available in Stationary and Mobile.

Camshelving Premium® Series

- Durable polypropylene exterior with a steel core for superior strength and stability.
- Heavy-duty shelving ideal for walk-in freezers, coolers, and dry storage.
- Corrosion-resistant and tool-free assembly for long-lasting performance and easy setup.
- Available in Stationary and Mobile.

NSF For a list of NSF-listed models, search "Camshelving" at https://listings.nsf.org/certified-products-systems

Camshelving Elements® XTRA Series High Density Storage Top Rail System

- Top-mounted rail design allows easy cart access and improves maneuverability within aisles.
- Load capacity: up to 2,400 lbs (1088,6 kg) for stationary units and 900 lbs (408,2 kg) for mobile units.
- Ideal solution for dry storage applications in healthcare environments.
- Shelf plates feature molded-in antimicrobial Camguard®, supporting sterile environments and helping minimize contamination in line with Health Department and Joint Commission preferences.

Increases Storage Capacity Up To 40%

Camshelving Premium® Series High Density Storage Floor Track System

- Create efficient aisles in limited space.
- Easy installation—no bolts, glue, or drilling required.
- Smooth mobility with raised track and grooved casters for easy movement.
- Vented shelves improve airflow for a cleaner, more sanitary storage environment.

FOOD STORAGE

Effective Food Storage Solutions for Freshness & Food Safety

Cambro's efficient storage solutions, including food boxes, pans, rounds, squares, allergen free containers and dissolvable rotation labels, help streamline kitchen organization while maintaining HACCP compliance. Made from FDA-approved materials, these products enhance inventory management and food safety.

Camwear® Food Pans & Covers

- Virtually unbreakable material provides long-lasting toughness.
- Wide temperature range of -40˚F (-40˚C) to 210˚F (98,9˚C) allow for use in a variety of applications.
- Standard GN pan sizes with depth variation from 2" (5,08 cm) to 8" (20,32 cm).

CA PROP 65

Translucent Food Pans & Covers

- Translucent polypropylene pans offer durability and easy visibility for quick inventory checks.
- Safe for use from -40°F to 190°F (-40°C to 87,7°C), ideal for cold storage and prep tables.
- Dishwasher safe.

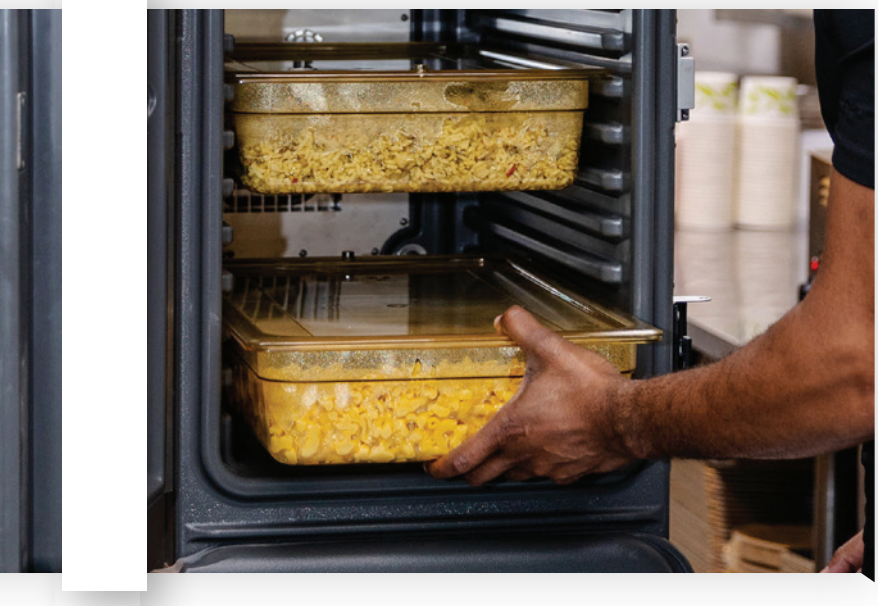
High-Heat Food Pans, Covers & Measuring Cups

- Withstands extreme temperatures from -40°F to 375°F (-40°C to 190,5°C), making it perfect for both freezing and hot food applications.
- Designed with a smooth, non-stick interior that enhances food yield and simplifies cleaning, while being crack and chip resistant.
- Measuring cups ensure precise measurements and safe handling.

CA PROP 65

BEST PRACTICES

- Minimize any food handling by using the proper storage and utensils.
- Quickly cool hot foods to a safe temperature of 70˚F (21,12 ˚C) within 2 hours and to under 41˚F (5˚C) within 4 hours.



FRESH PRO

FreshPro CamSquares® Food Storage Containers & Covers

- Maximize freshness and extend the shelf life of produce by up to 2 days with drain shelves and seal covers.
- Easy-to-read graduations and color-coding simplify prep and storage processes for staff.

CA PROP 65

Food Rotation Labels

- Prevent cross-contamination and ensure safe food handling by labeling and dating containers to maintain First In, First Out (FIFO) food storage.
- Biodegradable labels dissolve in the dishwasher or under running water in less than 30 seconds, leaving no sticky residue.

BEST PRACTICES

Utilize allergen-free containers and labels to denote allergens and ensure you adhere to dietary restrictions for your patients.

CATERING & MOBILE VENDING

Reliable Insulated Transport & Holding Solutions

With Cambro's durable and efficient insulated transport and holding, beverages and meals can be transported, held, and served at safe temperatures to staff, visitors, or patients, ensuring consistency and compliance with healthcare standards.

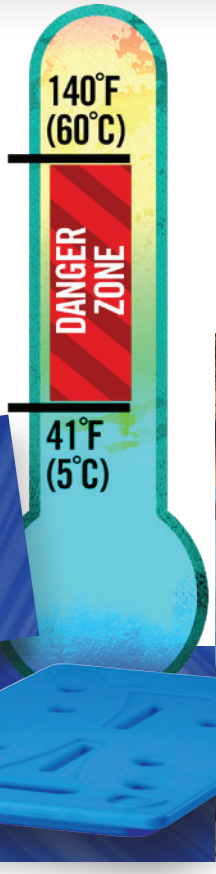
PCUPP PCULH

Cam GoBox®

- Ideal for delivering meals to various locations, including doctor's lounges or cafeterias, with ease and convenience.
- Made from 100% recyclable materials, these stackable containers are lightweight and dishwasher safe.
- Keeps food at safe temperature for up to 4 hours, ensuring food quality and fulfilling HACCP compliance.

Space-Saving DESIGN on EPP180S



- Retain safe temperatures throughout holding and transport by minimizing opening and closing of equipment.
- Utilize Camchillers®, Camwarmers®, or Thermobarriers® in insulated carriers to help maintain holding temperature.

BEST PRACTICES

The safe zone for food temperatures is under 41˚F (5˚C) for cold food and above 140˚F (60˚C) for hot food.

Ultra Pan Carrier®
& Camcart®

- Front-loading transporters feature ergonomic handles.
- Offered to securely hold GN food pans (pan carriers), sheet pans (1826DTC), or food boxes (1826DBC).
- CFC-free insulation keeps food hot or cold for 4+ hours without requiring electricity.
- Rust, dent, and crack-resistant with full swing doors for easy access, ideal for use anywhere in your facility.
