VOLLRATH

59510P

120-volt 1400-watt Mirage® Pro countertop induction range

The Vollrath® Mirage Pro countertop induction range provides safe, high-efficiency heating with powerful, portable performance. A strong engine powers the entire unit with 90-percent energy efficiency, compared to the approximate 50-percent efficiency of gas ranges. This impressive unit has a power mode with 100 power levels and an approximate temperature range from 80°F to 400°F for extreme versatility. It also has a temperature mode with a temperature range from 80 °F to 400°F for precise heating. The knob and digital controls are easy to use and clean, while the bright LED display keeps you informed. The temperature memory heats the unit to the last set temperature for your convenience. Auto shutoff and hot-surface warning features extend the life of this unit and improve safety. The stainless steel body and molded plastic bottom are built to last, while the smooth ceramic top is easy...
