IMC TEDDY DISHTABLES

Dishtables provide the perfect space to place dirty dishes before running them through your commercial dishwasher or to store clean dishes before they are put away.

Choose from straight, L-shaped, or U-shaped tables to set up a ware-washing area that accommodates your daily routine. Link a dishtable to your conveyor, single, or double rack dishwasher, or connect one to your three compartment sink, so you can wash dishes more efficiently.

SOAK SINKS

IMC soak sinks are great for soaking dirty silverware prior to washing. Mobile design allows the unit to be moved easily around the kitchen. Dirty silverware can be moved to cleaning area quickly.

When unit comes w/ optional silverware chute, it makes it easy to push silverware off the table and down the chute into sink, making for a fast cleanup.

UCS MODEL

IMC/TEDDY

DECADES OF FINE CRAFTSMANSHIP

IMC is a Consultant/Designer driven manufacturer of Food Service Equipment. We welcome product recommendations and upgrade suggestions from you. Our mission is to introduce new and innovative products in food service equipment and storage/handling systems.

IMC only uses Type 304 stainless steel which is recommended for high corrosion resistance and uniformity of finish. Every IMC product will perform its intended function even in the most punishing work environment.

Production begins with Laser and CNC machine work and the final product is polished to a #4 brushed satin finish. The finish has the ability to hide and blend scratches for many years. Each product is then carefully inspected and protected for delivery to the customer.
