Full-size Traex® Plate Crate™ warewashing system for 10- to 10 ¾-inch plates up to 1 inch thick with five extenders in beige

The Traex Plate Crate warewashing system is the perfect crate for washing, storing and transporting your china. The interior features a wire grid that holds items at the ideal angle for cleaning, maximizes capacity and speeds drying time. And the wire is powder-painted to prevent corrosion and create a cushion that prevents chipping and breakage. The rack and extenders are made of double-wall copolymer plastic to ensure chemical, impact and heat resistance up to 180°F for 30 minutes. The open profile allows top-to-bottom and side-to-side washing, as well as air circulation for superior cleaning and drying. Handles on all four sides of the rack ensure easy gripping and transportation, while reinforced index strips allow for four-way tracking.

SPECIFICATIONS

UPC	029419863785

FEATURES & BENEFITS

- Open profile allows thorough washing and air circulation for superior cleaning and drying
- Powder-painted wire grid prevents corrosion and cushions plates to prevent chipping and breakage
- Copolymer plastic construction is chemical-, impact- and heat-resistant up to 180°F for 30 minutes
- Wire grid holds plates at ideal angle for cleaning, maximizes capacity and speeds drying time
- Convenient solution for china storage, washing and transportation
- Handles ensure easy gripping and transportation
- Reinforced index strips for four-way tracking
- Made in the USA
- NSF-certified
