VOLLRATH

3903

# 10-quart Optio™ sauce pot with low-domed cover

The Optio sauce pot by Vollrath is perfect for simmering soups and stews. The shorter, wider shape is ideal for liquids, while the combination of the natural finish and aluminum-clad bottom ensures even heating and uniform cooking. The stainless steel construction resists discoloration and corrosion, allowing these items to last for years, and prevents flavor retention for higher-quality results. The welded handles are impressively durable and provide a steady grip, while the low-domed cover helps retain heat and moisture for more efficient cooking.
