VOLLRATH

8244020

Miramar® resin template for one large rectangular Miramar contemporary food pan in white stone

The Miramar resin template by Vollrath fits perfectly into your standard-size well opening, warmer or chafer, and the large cutout holds one rectangular Miramar contemporary food pan perfectly. Made of durable thermoset resin, this template works for both hot and cold applications and is heat-resistant up to 300°F. It won't warp or fade, and the underside features an integral rib design that provides extra strength and secures the template into the well.
