VOLLRATH

3202

# 7-quart Centurion® sauce pot in natural finish

The Centurion stainless steel sauce pot by Vollrath allows you to simmer soups and stews, cook pastas and more with ease and efficiency. The heavy-duty stainless steel construction resists discoloration and corrosion, promising years of use, and prevents flavor retention for higher-quality results. The natural finish and an aluminum-clad bottom work together to ensure consistent heating and uniform cooking, while the welded hollow handles provide convenient transportation and a cool, comfortable grip.
