VOLLRATH

3501

8-quart Optio™ stockpot with low-domed cover

The Optio stockpot by Vollrath is durable, reliable and perfect for the value-conscious chef. The high-quality stainless steel construction resists discoloration and corrosion, promising years of use, and prevents flavor retention for higher-quality results. This pot is induction-ready and features a natural finish and aluminum-clad bottom that ensure even heating and uniform cooking. The tall shape makes this pot ideal for cooking pastas, soups, stews or preparing large quantities of liquids, while the low-domed cover helps retain heat and moisture for more efficient cooking.
