VOLLRATH

5270-1

16-inch aluminum frame for professional sieve

Replace an old sieve frame with this professional sieve frame by Vollrath. When paired with a mesh screen (sold separately) this sieve is perfect for sifting dry ingredients or straining a variety of food items. The 14 gauge aluminum construction is durable, lightweight and easy to clean. The 16-inch size is perfect for a wide range of food items, making this sieve frame an ideal choice for bakeries, restaurants and more.
