MHS
Moon Hand Sink

General Information

Project Name: _____

Consultant: _____

Item #: _____

Model #: _____

Quantity: _____

Model #MHS-4
*Includes Faucets &
Foot Pedal Valves

Specifications

MHS Model Moon Hand Sink is constructed of 14GA Type 304 stainless steel. Base is constructed of 18GA type 300 series stainless steel.

Sink bowl is rounded and pitched to 3½" crumb cup with 1½" fittings.

Faucet spouts are secured to 14GA S/S cylinder with an integrated 18GA S/S removable cover for access to plumbing. Cover is secured with S/S screws.

Pedestal base has cutouts for foot pedals. Base has a removable panel for easy access to plumbing under sink. Base is 28"H.

Integral backsplash is 14GA S/S measuring 15½" high with 1½" x ¾" bend down for "z" brackets to attach to wall.

Includes faucets & foot pedal valves.

Product Guide

IMC Hand Sinks are easily cleanable without the use of tools. All seams are fully welded and polished.

High backsplash protects wall and keeps sinks sanitary.

Integral cabinet body supports sink and provides access to plumbing.
