ITSD
Integrated Towel & Soap Dispenser

Project Name:_____

Consultant:_____

Item #:_____

Model #:_____

Quantity:_____

Specifications

ITSD Model Integrated Combination Towel & Soap Dispenser is constructed of 18-gauge #304 stainless steel, fully enclosed on sides, top and bottom. All corners are fully welded and polished smooth. Unit to be secured to backsplash of IMC hand sink. Hinged door with optional lock provides access for replenishing towels and soap.

Product Guide

Exclusive unitized design is suitable for all hand wash areas, providing convenient access to soap and towels at the sink.

Located immediately above the hand sink, there are no spills or excuses from service staff. Compact size with a large capacity makes it suitable for every hand wash or sink station.

Towel dispenser holds 400 standard multi-fold paper towels and the soap dispenser has a 28 oz. (0.83l) capacity.

Consumables are easily replenished and kept secure behind a lockable door.

Options

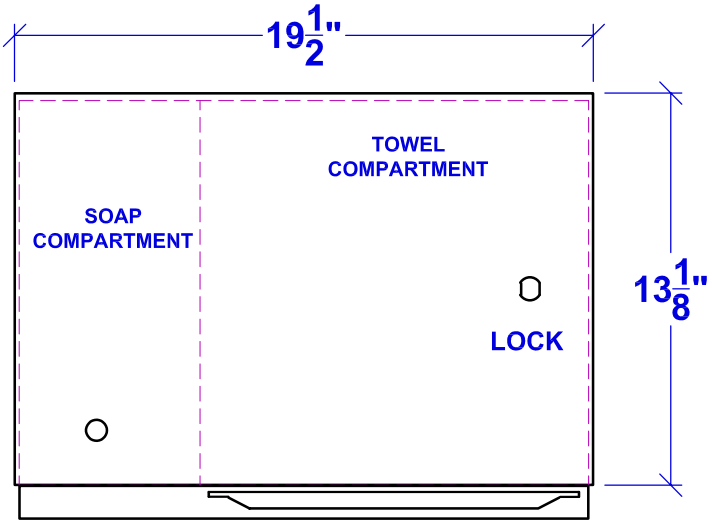

- ☐ Security/Correctional design
- ☐ Stand-alone wall mounting
- ☐ Keyed tumbler lock
