SMART DRAFT™ SYSTEM
Powered by BarTrack

Beverage Reporting Unit (BRU)

Description:
Improve quality, ensure consistency, boost profitability, and automate inventory management. BarTrack's innovative sensor technologies and management tools deliver immediate profits and cost savings! The plug-and-play sensors install easily into any draft system, making any system Smart. The BarTrack App gives you visibility into any beverage's temperature, pressure, line cleanliness, foam, unrung pours, system help, real-time keg levels, and more!

Features:
- Monitors nearly a dozen beverage specific variables in real-time, like temperature and pressure*
- With no moving parts, this is the most accurate flow sensor on the market, measuring to the mL
- The plug-and-play sensor is compatible with any draft system, including kegerators
- The average installation takes one hour per 10 lines. Simply cut existing lines and place the sensor in between
- Only one cable is daisy chained in between the units, making the installation easy and look clean
- POS Integration
- NSF-certified pending

What's included:
- All cables

Specs:

BRU4
- Weight: 3.3 lbs
- Length: 11.25 in
- Height: 7.5 in
- Width: 1.5 in
- Material: Stainless steel

BRU2
- Weight: 2 lbs
- Length: 7.25 in
- Height: 7.5 in
- Width: 1.5 in
- Material: Stainless steel
