Conductive Ultra Stack Bins & Dividers

MADE IN THE USA

Protect your electronic components from typical electromagnetic interference *(**EMI**)*, electrostatic or induced fields with these conductive polypropylene bins. The conductive material provides a barrier which these fields cannot penetrate and prevents the build-up of an electrostatic charge. Bins are permanently conductive and are unaffected by washing with normal cleaners. Molded from a carbon filled copolymer polypropylene material with an electrostatic decay rate at less than 0.1 second that meets conductivity standards as tested with ASTM-D257 methods. Its surface resistivity is less than 10^5 Ohms-per square. Easy access to stored items with hopper front bin and label holder provides fast identification. Reinforced side walls and wide ledge allow high stacking on benches or shelving. Be sure all bins are properly grounded according to your use.

Available in: ●Black

CONDUCTIVE SELECTION AVAILABLE ANYWHERE

CUSTOMIZE YOUR OWN UNIT

1. *Select the hanging unit of your choice.*
2. *Use the chart across and choose the bin that best fits your need.*
3. *Go to the chart at the bottom of this page and determine how many bins fit on the unit you selected.*
4. *Place your order for both unit and bins.*

Wire Louvered Panels

WALL MOUNT YOUR CONDUCTIVE BINS

Quantum's new chrome Wire Louvered Panels offer a perfect mounting solution for all plastic hanging and new wire mesh hanging bins. Quantum's exclusive offering of wire panels, available in three sizes, completely resist any buildup of dust or dirt. Included direct mounting clips enable fastening to any surface *(wall, wood, concrete, drywall, etc.)* a snap. Manufactured of heavy-duty chrome wire, Quantum's wire panels will offer years of dependable and heavy-duty service.

GROUND WIRE ALLOWS STATIC CHARGE TO BE DISSIPATED KEEPING BIN CONTENTS SAFE
