Camshelving® Elevation Series Wall Shelving

CAMBRO®
TRUSTED DURABILITY

www.cambro.com

It's not just wall shelving. It's **Camshelving®**

Cambro® has provided operators the most hygienic and durable commercial foodservice shelving since 1999. Over the last 25 years, Camshelving has proved it can handle cold, moisture, acidic ingredients, humidity, and constant cleaning in kitchens around the world. Designed to maximize even the smallest spaces, Camshelving has allowed operators to use every inch of their floor space to the best of its ability.

Now, there's nowhere to go but **Up**.

Camshelving Elevation Series Wall Shelving combines highly durable plastic components with Type 304 Stainless Steel accessories to help operators create wall storage like never before.

You're Invited to Upgrade . . .

to Camshelving® Elevation Series Wall Shelving, a new vertical storage system that will never rust, corrode, peel or dent, as long as you're in business. Choose from standard kits or customize your space with individual components and accessories to fit your needs. Camshelving Elevation Series Wall Shelving is designed with modular shelving components to allow your wall shelving to continuously adapt to changing demands.

Extremely Easy to Clean

Ultra Hygienic

No Rust or Flaking EVER

Unmatched Durability

Say Goodbye to THIS . . .

FOREVER

Wire wall shelving rusts under pressure and in wet environments. Inevitably, it is either thrown out into landfills or left on the wall as a breeding ground for bacteria.

Elevation Series Wall Shelving has a lifetime warranty against rust & corrosion. Never worry about replacement costs or deterioration again!

Now when you choose Camshelving for your wall space, you can choose **SHELVING for LIFE®**

NOTE: Shelf Brackets and Hanging Pegboards cannot be installed right next to each other, side by side, on the same shared wall upright.

SHELF TIP: Shelf depths depend on the location of the shelf. Deeper shelves work best installed up high for light duty storage like paper products or infrequently used kitchen supplies or equipment. Narrow shelves are best directly above worktables, so workspaces are open and unobstructed.

CAUTION! PLEASE READ PRIOR TO INSTALLATION!

▪ To facilitate the installation of Cambro Elevation Wall Shelving System, properly secure it to an adjacent wall using a professional installation company or your company's qualified Maintenance or Engineering personnel to ensure adequate wall securement, adhere to proper load bearing requirements, and to avoid all utilities.

▪ Mounting of tracks, uprights, and wall mounted peg boards solely to drywall is NOT recommended.

▪ The first and last holes in a continuous length of wall track MUST BE installed into a wood stud or acceptable reinforcement (blocking) with appropriate hardware.

▪ If 12" (30 cm) or more of the track extends beyond a wood wall stud, the section of wall between the studs MUST BE appropriately blocked to provide the wall track with a secure surface to complete the installation.

▪ Appropriate hardware must be installed AT LEAST every 16" (40 cm) (on each stud) along the track.

▪ When installing uprights WITHOUT track, the first and last holes in each upright MUST be installed into a wood stud or appropriate reinforcement (blocking) with appropriate hardware.

▪ Wall tracks, uprights and wall mounted peg boards ARE NOT designed to replace additional structural support for walls. Installers should use discretion and properly reinforce walls before installing wall tracks, uprights, and wall mounted peg boards.

▪ HARDWARE NOT INCLUDED with wall shelving products.

▪ NOTICE: Regular inspections of product after installation is highly recommended. Tighten loose fasteners and replace damaged parts with new approved Cambro parts. All parts can be easily removed for cleaning and are commercial dishwasher safe.
