# Full-size 30-compartment Traex® Rack Max® glass rack with four extenders in beige

The capacity of the Traex Rack Max glass rack by Vollrath is unmatched. These racks feature a unique design that fits 17 to 30 percent more glassware than a traditional rack. This increased capacity helps speed the cleaning process and maximizes space, which saves valuable time, water, energy and more. Built-in rack dividers provide 100 percent vertical protection for your glassware, and the extenders create ample room for tall glasses. Made of copolymer plastic to ensure chemical, impact and heat resistance up to 180°F for 30 minutes, this rack is impressively durable. The open profile allows top-to-bottom and side-to-side washing, as well as air circulation for superior cleaning and drying. Handles on all four sides of the rack ensure easy gripping and transportation, while reinforced index strips allow for four-way tracking.
