VOLLRATH

5270

16-inch professional sieve

The Vollrath® professional sieve can be used to sift dry ingredients or as a strainer for outstanding versatility. The 14-gauge aluminum frame is built to last for years, and the stainless steel mesh screens are impressively durable and reliable. The sleek exterior creates a beautiful appearance, and the 16-inch size is ideal for a wide range of applications while still being small enough to store easily. It helps improve the efficiency of your kitchen and raise the quality of your food items.
