VOLLRATH

47258

# 16-inch stainless steel piano whip

Designed for comfort, durability and longevity, the piano whip by Vollrath is a versatile tool. The fine wires, which are ideal for mixing or aerating thinner food products, are reinforced by a center wire, so they won't bend, twist or deform no matter how vigorously you whip. The round shape provides good coverage in round bowls, and integral nubs on the one-piece handle ensure a safe, comfortable grip and excellent control.
