912HDI-2900

208- to 240-volt two-hob heavy-duty induction range with temperature control probe and programs

Vollrath's two-hob heavy-duty induction range with InductIQ™ technology is a powerful complement to any commercial kitchen space. Smart, fast and Energy Star certified, it delivers steady, precise heat while reducing energy costs. A newly designed control knob with digital display makes it easy to do everything from fast boiling to warming, with customizable programs that remove the guesswork and a temperature control probe that monitors heat for precise results. Expand your current capabilities with a 2900-watt-per-hob powerhouse that cooks like gas, only better.

SPECIFICATIONS

UPC	198594089447
