Wood Panel Side Serviced Grilles

Glastender side-serviced coolers and frosters can be ordered with special compressor compartment covers to accept field-installed wood panels by others.

Wood Panel Side Serviced Grille Mounting Instructions

1. Remove the bottom screw fastening the metal grille assembly to the cooler and carefully lift upward to disengage the upper grille flange from the offset clip.
2. On the back of the digital controller, use a small screwdriver to remove the probes. Disconnect the wire harness also.
3. Lay the wood panel grille face down on a clean, smooth surface.
4. Align the metal grille assembly mounting holes with pre-drilled holes in wood panel grille.
5. Fasten the wood panel to the metal grill assembly with supplied fasteners in all six locations.
6. Reconnect controller probe wires and wire harness
7. Slide the grille upper flange into the offset clip and reinstall the bottom screw.
